SNC-Lavalin to open facility in Sealy, Texas

SEALY, Texas, Wednesday, July 6, 2016 – The City of Sealy is joined today with Austin County officials and other representatives to announce that SNC-Lavalin is opening a new facility in Sealy, Texas. “I am really excited about SNC-Lavalin coming to Sealy and wholeheartedly welcome them. This company has a long-standing history of excellence which I feel is a fantastic match for our community. I look forward to this being a long-term relationship between the company and the entire local area,” said Mayor Mark Stolarski. “In addition, my hat goes off to executive director Kim Meloneck of the Sealy Economic Development Corporation and city manager Larry Kuciemba, and others on city staff, for all their hard work in bringing this partnership together,” said Mayor Mark Stolarski. At peak employment, SNC-Lavalin expects the facility to have up to 250 employees. They will be locating on a portion of the property located at 5000 NW I-10 Frontage Road.

SNC-Lavalin will employ positions for engineers, accounting, project managers, warehouse attendants, general laborers and other positions.

“We are excited about this announcement today, and the economic impact that this project will have on Sealy, Austin County and the surrounding areas,” said city manager Larry Kuciemba.

“We are certainly energized by SNC-Lavalin’s decision to locate in Sealy and we look forward to having them as part of our community,” said Kim Meloneck, executive director of the Sealy Economic Development Corporation.

SNC-Lavalin was founded in 1911, and is one of the leading engineering and construction groups in the world and a major player in the ownership of infrastructure. Their head office is located in Montreal, Quebec, Canada. From offices in over 50 countries, their over 37,000 employees provide engineering, procurement construction, completion and commissioning services together with a range of sustaining capital services to clients in four industry sectors, oil and gas, mining and metallurgy, infrastructure and power. Additional information regarding SNC-Lavalin may be found on their website at www.snclavalin.com
